

Important Questions for Adults to Ask Before Our Kids Get Together and Play

1. Will there be adult supervision at all times?
2. Does your house have a pool? Is it fenced on all four sides?
3. Is there a lake or retention pond close to the home?
4. Do you have pets or other animals in or around your home?
5. Will the kids be riding bikes or scooters? Do you require helmets to be worn?
6. Are any guns in the home? Are they stored unloaded and locked in a secure place?
7. Will my child be riding in your car? Do you need his/her car seat?

All About Us

Child's Name: _____

Nickname: _____

Information to Give Other Adult Watching the Kids

Person Able to Pick Up Other than a Parent _____

Allergies: _____ None

My child can / cannot swim

My child is afraid of: _____

My child enjoys: _____

Other Notes: _____

Children's Safety First

Did You Know. . .

- In the US, unintentional injuries are the leading cause of death for children less than 19 years of age
- Most young children who drown in pools were last seen at home and out of sight for 5 minutes or less. Even when children can swim they need to be watched by an adult at all times near water
- Helmet use can reduce the risk of a head injury by 85%
- 75% of all gun injuries or deaths occur in the child's home or home of a friend or relative. About 1.7 million children in the US live in a home with a loaded and unlocked gun
- Booster seat use can decrease the risk of injury by 59% compared to seat belts alone. Car seats decrease the rate of infant motor vehicle deaths by 71% and toddler motor vehicle deaths by 54%
